Helping You Access Divine Connection for Healing

Dr. Rod Chelberg is a retired medical physician who works as a spiritual guide to facilitate emotional, mental, and physical healing. He combines his medical knowledge with Divine guidance to help people be responsible for their own healing, and remove blocks to love's presence, as those blocks can manifest as illness. Dr. Rod teaches how to realign the mind and tap into the power within to live life to the fullest. He is also a teacher for the Divine and helps others start on their spiritual journey. As a child, Dr. Rod had a near-death experience, which gave him spiritual gifts that he believes are available to us all. These gifts matured over time and guided him to facilitate spiritual healing in others. Dr. Rod received his medical degree from the University of Minnesota. His practice included general internal medicine, hospital, and intensive care (ICU) medicine, and he spent 14 years as an emergency room physician. During the last five years of his career, he was the medical director for four nursing homes and a large hospice company in Bangor, Maine. DR. ROD'S STORY

Dr. Rod received his medical degree from the University of Minnesota, Minneapolis, and was trained in ICU and hospital medicine. His practice included general internal medicine, hospital, and intensive care (ICU) medicine. He spent 14 years as an emergency room physician, and then worked as the medical director for four nursing homes and a large hospice company in Bangor, Maine. Over the course of his career, Dr. Rod has treated between 65,000 to 70,000 patients.

When he was a child, Dr. Rod had a near-death experience (NDE), which left him with three gifts: he learned astral projection, he started to see the colors over people's hearts and eventually their auras, and his consciousness expanded enabling him to live in two worlds – one of Spirit and one of humanity.

Later in life while working as a physician, Dr. Rod started to receive messages from Christ who would guide him in patient care. Those Divine interactions taught him about God's grace, and he felt His tremendous love and peace.

Dr. Rod has survived three potentially life-ending cancers and a massive stroke. He believes he healed when he opened his mind to the Divine within his heart. He realized that all power lies within, and we can choose God's love and guidance. It is his mission today to teach others how to access their Divine connection for healing.

All that he experienced led Dr. Rod to write the book, *When God Calls, Say Yes!*, which is a testament to how much God loves us

Today, as a God-based spiritual guide, Dr. Rod uses Infinite Wisdom to empower people to heal, restore their emotional well-being, and discover their gifts.
