Spiritual Guide, Mentor, Teacher

Helping You Access Divine Connection for Healing

ABOUT DR. ROD

Dr. Rod Chelberg is a retired medical physician who works as a spiritual guide to facilitate emotional, mental, and physical healing. He combines his medical knowledge with Divine guidance to help people be responsible for their own healing, and remove blocks to love's presence, as those blocks can manifest to illness. Dr. Rod teaches how to realign the mind and tap into the power within to live life to the fullest. As a child, Dr. Rod had a near-death experience, which gave him spiritual gifts that he believes are available to us all. These gifts matured over time and guided him to heal others. Dr. Rod received his medical degree from the University of Minnesota. His practice included general internal medicine, hospital, and intensive care (ICU) medicine, and he spent 14 years as an emergency room physician. During the last five years of his career, he was the medical director for four nursing homes and a large hospice company in Bangor, Maine. Dr. Rod is a popular media guest, speaker, and author of the book, *When God Calls, Say Yes! A Physician's Experience of Mystical Guidance*.

WHEN GOD CALLS, SAY YES!

When God Calls, Say Yes! A Physician's Experience of Mystical Guidance, chronicles Dr. Rod's personal journey of awakening. In it he describes his emergency room mystical experiences, when Christ helped guide him in the care of patients. He discusses the unreality of death and dying in detail, citing multiple patient cases in which Christ provided loving assistance. And he reveals what it is like to meet God and realize that we are One.
